

## CRW – RAC – Questions from Bidders – FINAL Addendum August 18, 2017

Below are clarifying questions from each of the RACs that were submitted prior to close of business August 16, 2017. Answers from the Authority are included in red below. This is the final addendum.

### Enterprise / National / Alamo (Barb)

1. Page 13, Ready/Return spaces. You have indicated that the minimum number of spaces to be awarded will be 5 for each brand. Please clarify that you will calculate the number of spaces awarded based on the MAGs bid, but if a company would not merit 5 spaces per brand, they will **then** receive the minimum. It would not be fair if each company received 5 spaces per brand and then received its bid share; in that case, if Enterprise would submit a single brand response it would be at a disadvantage even though its market share is similar to other companies that have two brands. **Response: Correct. The allocation of all Ready/Return spaces initially will be calculated and awarded to successful Bidders solely based on the submitted MAG bid amounts. Only in the event that a successful Bidder is awarded an allocation below the above minimum threshold would the quantity of spaces be adjusted accordingly.**
